Laser Optimized Cassettes

Designed to achieve optimal performance with Vega and Nova laser cassette printers

Printing

- Specialty laser cassettes are engineered to ensure 600 dpi print quality when used with Epredia laser cassette printers
- Consistent legible labeling on all cassette types and colors

Grossing, Embedding and Processing

- Opening and closing forces have been carefully adjusted for ease of use, while safeguarding valuable specimens during processing
- Design and flow characteristics have been tested to ensure efficient tissue processing

Laser Optimized Cassettes

- Ensure laser cassette printer reliability with specialty designed molds
- The laser cassettes utilize eco stripped packaging to reduce single use plastic waste of traditional cassette tubes
- Eco strip recycled plastic content is greater than 95%+

Sectioning

- The laser cassettes are precision engineered for a solid connection to Epredia microtomes
- Cassettes are compatible with common microtome block clamps

epredia

Key Features

- Maximize fluidics exchange during processing
- Compatible with common microtome block clamps
- 45° angle surface for easy access

All models provided with Epredia Eco Stripped packaging

110 Model

- Pore style: slotted
- For routine specimens
- Lid opening: front
- Lids packaged loose

1000 per case
25 stacks of 40 cassettes

Nova and Vega Laser Cassette Printers

The **Epredia Nova and Vega Laser Cassette Printers** offer high quality, 600 dpi indelible print on the surface of compatible cassettes.

Advantages of Laser Cassette Printers:

- High resolution printing allows for up to 100 characters to be included in 2D barcodes for cassettes
- Fast print speed can improve laboratory workflow
- Small, benchtop printers can fit easily into existing laboratory workstations
- Laser technology does not require additional consumables
